New WSA feature!

NEW

The discussion area of our webinars and courses is now **LIVE!**

JOIN NOW!

www.world-stroke-academy.org

We love to hear from you!

Which is why the World Stroke Academy website has a new feature that allows you to directly comment and ask your questions under the following categories:

- Webinars
- E-learning modules
- Case Studies
- Podcasts

OVERVIEW

The World Stroke Academy (WSA) is the e-learning platform for the World Stroke Organization.

The WSA facilitates educational materials for healthcare professionals in a variety of formats (podcasts, webinars, e-learning modules, conference webcasts..) to meet the needs of the WSO membership, with the support of the WSO Committees and the Stroke Connector programme.

The role and scope of the WSA are not trivial. The WSA carries multiple responsibilities, from managing editorial decisions and leading strategic directions to disseminating and enhancing the knowledge of stroke around the world in support of the WSO vision.

Upcoming AHA/WSA webinar

January 12th, 4pm CET

Impact of COVID-19 Pandemic on Stroke Care

The COVID-19 Pandemic has greatly affected the delivery of care in the area of Stroke. A recently published paper, addressed the challenges and strained resources of low and middle income countries and aimed to address recommendations that may be low cost but high impact. This discussion will involve key HCPs involved in the delivery of care in these systems and real world perspectives from those involved in the paper and for the continued delivery of stroke care in a pandemic environment. CE Credits for physicians and nurses.

When: Wednesday, January 12, 2022 at 9:00 AM Central

Moderator: Valerie Caso, MD, PhD, FESO

Panelists: Jeyaraj Pandian, MD, DM, FRACP, FRCP, FESO, FWSO, FNAMS; Gisele Sampaio Silva, MD, PhD; Peter Panagos, MD, FACEP, FAHA

December Paper of the Month

WSA PAPER OF THE MONTH
DECEMBER

EUREKA:
Thrombolysis,
Endovascular
Thrombectomy
or both?

To bridge, or not to bridge?

[Read it here](#)

A new WSA feature selected as being of particular interest of originality, highlighting original research in the field of neurology, selected by WSA Editor-In-Chief, Dr. Gustavo Saposnik

This month: **EUREKA: Thrombolysis, Endovascular Thrombectomy or both?**

Re-watch Stroke in the very elderly

+216 registrations
+96 attendees

 [Watch here](#)

Stroke remains a common cause of death and disability in the very elderly and although there has been remarkable progress in treatment and prognostication of stroke, very little research focused on stroke characteristics in the very old exists.

Moderators: Prof. Gary Ford
Speakers: Prof. Janika Korv, Prof. Arijana Lovrencic-Huzjan

...and other 2021 WSA webinars!

Throughout 2021 the World Stroke Academy and the World Stroke Organization have organized high quality #webinars covering important daily practice issues in #stroke prevention, acute management, organization, understanding, etc...

We invite you to check this material!

We're happy to help - contact us with your questions or proposals for e-learning content/webinars at education@world-stroke.org.
