

NOVEMBER 2022

# WORLD STROKE ACADEMY

News and updates from the WSO Educational Platform

## World Stroke Congress 2022, Singapore

The 14th World Stroke Congress in Singapore assembled the international stroke community to work together to reduce the burden of stroke by delivering improvements in prevention, treatment and support. Global professionals discussed the latest science, clinical trials, breakthroughs and guidelines to stroke prevention. The World Stroke Academy proudly represented on-site the impact of its educational activities & projects and networked with the stroke community! Daily summaries can be found here: <https://worldstrokecongress.org/daily-summaries/>

## Call for proposals!

The World Stroke Academy has been organizing a series of international webinars, as well as e-learning modules, case studies, podcasts and other educational activities to compensate for the loss of face-to-face meetings and conferences and to support clinicians struggling to maintain stroke services and research during the pandemic.

Submit your proposals [here!](#)

## In case you missed it...

### Description:

With the aim of improving the quality of support and educational material available globally on the topic of Life After Stroke, the World Stroke Academy, the Educational platform of the World Stroke Organization, invites you to participate in a free 60min webinar on the 'Management of Post-Stroke Spasticity'. This webinar will be structured in 3 segments. The first one will introduce the personal experience of spasticity after stroke in a stroke survivor. The second will cover the topic of motor impairments and activity limitations after stroke and the third one will focus on the benefits of treating spasticity early.

This activity is funded by an unrestricted educational grant by Ipsen.

### Chair/Moderator:

Prof. Christine Roffe (UK)

### Topics and speakers:

Spasticity after stroke: my personal experience – Diana Wong Ramos (Portugal)

Motor impairments and activity limitations after stroke – Theodore Wein (Canada)

Treating spasticity early: what are the benefits? – Richard Zorowitz (USA)

We're happy to help - contact us with your questions or proposals for e-learning content/webinars at [education@world-stroke.org](mailto:education@world-stroke.org)
